ARPS/Circular/2021-22/020

On-site School Re-opening

Dear parents,

In view of the Kerala Government's directive to resume the on-site functioning of the classes, we are in the process of ensuring total preparedness for the physical reopening of the school in a phased manner.

The following points are to be noted:

- The school would be re-opening in three phases.
Phase 1: Classes would be held for Grade 5-8 at school from the first week of November 2021
Phase 2: Classes would be held for Grade 3-8 at school tentatively from the third week of November (provided there are no reported positive cases in the campus).
Phase 3: School would reopen for Grades 1&2 only if the classes are successfully conducted for the higher grades for a period of three-four weeks continuously.
- All the classes are planned to be held in hybrid mode. Internet data plans will be further enhanced to suit the heavy data usage.
- The students who do not wish to come to the school can attend the same class online.
- In order to make provision for school transportation keeping up with the safety restrictions, suitable revision will be effected on the bus fees and the bus timings.
- Consent letters from parents are mandatory for attending the on-site class. A class-wise google form will be sent to the parents for obtaining the consent.
- Those who would be giving consent for attending classes from school would be asked to give their measurements and procure their uniforms. Students can come in civilian attire till the uniforms are distributed.
- School will start functioning with all academic periods and activities such as freeplay/physical education will be only be added on a later date.
- The timings followed will be from 8:30-1:00 PM with one snack break. Students are to bring snacks from home.

Further details, safety protocols and instructions will be provided in the coming days.

Regards,

Principal

Ms. Anitha George
